

Electronic Insect Killers

Electric Insect Killers EcoKill 2 x 15 W

- Extremely lightweight aluminium construction • Including suspension chain and collecting tray • Outstanding value for money • Corrosion-resistant and scratchproof • Special UVA lamp which is very attractive to insects • TÜV-GS approved

Voltage: 230 V / 50 Hz
 2 lamps: 15 watts each
 Attraction coverage: up to 150 m²
 Voltage: 2200 V
 Dimensions: 49 x 11 x 34 cm

ref. no.	description		€
299950	EcoKill 2 x 15 watts	1/6	

Electronic Insect Killers MiniKill

- The ultraviolet light attracts flying insects into the active area of the device • Extremely economical LED UV lamp: just 4 W power consumption • Service life of lamp at least 10,000 hours • Can simply be plugged into a socket • With integral removable collection container • In a fire-resistant ABS plastic housing • Practical, lightweight and space-saving • Effective without chemicals • CE

Voltage: 220 - 230 V / 50/60 Hz
 Lamp: 1 x 4 watts
 Attraction coverage: up to 20 m²
 Voltage: 800-1000 volts
 Dimensions: 19 x 13 x 1 cm

ref. no.	description		€
299955	MiniKill	1/50	

Electric Fly Killer GREEN LINE

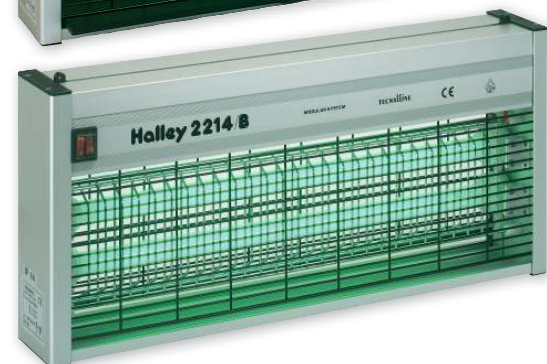

- well-tired fly killer now also available with green fluorescent tubes • experience shows that flies and insects are more attracted by fluorescent tubes emitting green rather than blue light. This increases considerably the amount of insects captured by the fly killer called "green line" compared to the blue standard unit • with noise suppression • CE • splash-proof (IP 44) for special farm conditions

Increased amount of insects captured by fluo-rescent tubes emitting green light!

Electronic Insect Killers

Electric Fly Killer ELECTRO KILL

- ultraviolet light attracts flying insects into the sphere of activity of the unit
- in front of the tubes a high-voltage live grate has been mounted
- on contact with the high-voltage grate insects are killed quickly and hygienically
- the dropping insects collect in a catch pan that empties by pulling it out of the unit
- interference-free
- CE

Fly Attractant Halley *

- increases the amount of insects captured by electric fly killers by up to 30%
- granulate contains special attractant
- fills into the catch pan of your fly killer (about 25 g)
- effective for about 4 weeks
- attracts flies, fruit flies, midges etc.

Attractant captures by 30% more insects

ref. no.	content		€
299863	100 g	1/12	

* Be careful on using biocides! Before application always read usage instructions!

Fly & Insect Control

BioFly Stable Fly Concentrate *

- modern spray and coating agent against stall flies and all species of creeping and flight pests • very high content of the natural active substance pyrethrum with synergist PBO • extremely good immediate action with expulsion effect
 - spray method: 500 ml on 5 l water for a treatment area of 250 m² (window sills, columns, walls, ceilings, pipes, etc.)
 - coating method: stir 500 ml in 5 l of water with 0,5 kg of sugar and coat on cardboard boxes or directly on the places where the pests are present
- Atomising with miniature cold atomiser: mix in a ratio of 1:10 with water (40 ml ready-mixed solution/m³)

ref. no.	content		€	active agent
299731	500 ml	1/12		Pyrethrum Piperonyl butoxide

qualified for organic farming!
sufficient for 500 m²

Bioblocker Pest Spray *

- ready to use stall and pest spray with the natural active ingredient Geraniol • wide application in the house, courtyard, stall, industry etc. • 100% natural active ingredient from the ethereal oils of coriander, nutmeg, rose and bay leaf
- starts to act fast, destroying the exoskeleton of the insects • duration of action up to 3 weeks • little to no resistance possible

qualified for organic farming!

ref. no.	content		€	active agent
299732	500 ml	1/12		Geraniol

Biological Insecticide MASTA-KILL

- certain effect against all insects and pests by special synergist combination • bio-degradable
 - rapid knockdown and kill of insects • long term effect for several weeks • no addition of organic solvents • no propellants, non flammable • pleasant odour • dosage: 16 ml/m²
- Atomising with miniature cold atomiser: 40 ml/m³
agent: permethrin, pyrethrin, mastavit-synergist

1 liter is sufficient for 60 m²

ref. no.	description		€	active agent
299719	400 ml spray	1/12		Permethrine
29973	500 ml without spray head	1/9		Pyrethrine
29975	2500 ml canister	1/12		Mastavit-synergist
29974	5000 ml canister	1/6		
299721	spare spray head	1/250		

Flytrap FLYCAGE & WASPCAGE

- flies and wasps are enticed by the smell of the paste and drown in the trap
- eliminates about 70 % of all flies in an area of up to 1.000 m² • non-toxic and ecological • long-term effect for 4 to 6 weeks

• non-toxic and ecological

ref. no.	description		€

Fly & Insect Control

TWISTER Fly Trap

- the classic weapon for fighting flies in pantries, dairies, etc. • the glued paper strips are made of natural components, such as resins, oils and fats • completely non-toxic and environmentally friendly • the glue attracts flies looking for food, whilst the free-hanging fly trap provides the perfect landing-pad for flying insects • use the red strap to carefully pull the rolled-up twister out of the hand-hot case. Use the tacks provided to fasten to the ceiling • 4 units/box

ref. no.		€
299839	1/36	

100 % herbal!

Flypaper Roll with Attractant 9 m

- new kind of flypaper roll with integrated attractant in adhesive coating • flies are attracted by pheromone and remain stuck on the trap • the printing on yellow paper makes it even more effective since it simulates pretended landing places • easy-to-handle, clean, without toxins and chemicals – 100 % effective.

Application: pull out flypaper roll as much as needed and obtain an excellent flytrap.
Thanks to the holder supplied it is easy to mount.

attractant captures by 40 % more insects

ref. no.	length	width		€
299847	9 m	30 cm	1/15	

Fly Paper Roll 7 m

- glue trap for controlling flies and flying insects • 7 m long - 30 cm width
- incl. metal handle • with yellow paper for even greater attraction of flies and insects • With new improved adhesive coating • 100 % non-toxic

ref. no.		€
29978	1/15	

Top Seller

Flypaper Sheet FLYMASTER

- 6 pieces of 595 x 300 mm each • FlyMaster flypaper reliably catches flies due to its integrated attractant in stables, milking parlours and inside houses • one piece catches up to 5.000 flies, or rather it covers an area of 200 m² • 100 % non-toxic and ecological • application: Mount flypaper as a whole or cut it in pieces – remove plastic wrap – and that's it!

ref. no.		€
299842	1/50	

with attractant up to 40% more effective

Fly Catcher FLYMASTER

- complete kit available with 400 m tape or 440 m of cord • ecological alternative for fly control in stables • used-up cord/tape rolls up on included empty reel • easy to mount • spare rolls trouble-free to replace

ref. no.	description		€
29976	tape 400 m, complete kit	1

KERBL

Mice and Rat Traps

RatStop DF Block *

Ready-to-use dimensioned bait blocks for house mice control

Bait blocks are weather-resistant and water-repellent. The block design attracts the gnawing instinct of rats and mice.

- for use in hygienic areas and buildings • Position 20 g blocks in bait stations in heavily frequented areas (near dens, access points, etc.) (secure them using the holes) • 100 g blocks are ideal for positioning in the sewer (suspend from sewer cover using wire) • agent: 0.05 g/kg of difenacoum

ref. no.	content		€	active agent
299534	25 x 20 g	1/12		Difenacoum
299535	125 x 20 g	1/4		
299536	10 x 100 g	1/8		

RatStop DF Cereal *

Ready-to-use fresh bait made of wheat grains

- For safely controlling rats and mice in areas such as waste dumps and for all private and commercial areas which are not used to store food or animal feed
- Active mixture attracts rats and mice • agent: 0.05 g/kg of difenacoum

ref. no.	content		€	active agent
299537	500 g	1/12		Difenacoum
299538	2500 g	1/4		
299539	10 kg	1		

RatStop DF Gelpad *

Ready-to-use rat and mice bait in paste form

- Very attractive to rodents due to the high fat content in the paste • in 15 g bags – also suitable for places difficult to reach • Ideal for use in damp areas
- agent: 0.05 g/kg of difenacoum

ref. no.	content		€	active agent
299540	500 g	1/12		Difenacoum
299541	2500 g	1/4
